What is Telehealth?

Under the MBS Telehealth Initiative.

A video consultation where a patient, accompanied by an eligible medical practitioner, undertakes a consultation via video conferencing to an eligible specialist, consultant physician or psychiatrist

There must be an audio and visual link between the patient and the eligible medical practitioner in order for the patient to claim for the telehealth rebate.

Benefits

- increased access to health services locally
- improved quality, cost and timeliness of healthcare
- supporting the sustainability of the Australian healthcare system
- making better use of the contemporary specialist workforce
- reduced patient travel
- reduced need for patients to take extended amounts of time off work or make lengthy family or day care arrangements
- reduced patient time away from home

Incentives

There are five types of incentives available for practitioners and RACF's:

		2011-12	2012-13	2013-14	2014-15
Telehealth On-Board: one-off, lump sum payment for eligible practitioners who provide at least one telehealth service		\$6,000	\$4,800	\$3,900	\$3,300
Telehealth Service (specialist):	an ongoing, quarterly payment based on # of telehealth consults hosted during a quarterly period	\$60	\$48	\$39	\$33
Telehealth Service (patient-end):		\$40	\$32	\$26	\$22
Telehealth Bulk Billing: paid each time a service is bulk billed		\$20	\$16	\$13	\$11
RACF On-Board Incentive (one-off): one-off, lump sum payment for eligible RACFs who provide at least one telehealth service. Must register with Medicare Australia		\$6,000	\$4,800	\$3,900	\$3,300
Telehealth Hosting Service Incentive: an ongoing, monthly payment based on total number of telehealth consultations hosted by the RACF over the preceding month.		\$60	\$48	\$39	\$33

Medical Practitioner Incentives		2011-12
Telehealth On-Board: one-off, lump sum payment for eligible practitioners who provide at least one telehealth service		\$6,000
Telehealth Service (specialist):	an ongoing, quarterly payment based on # of telehealth consults hosted during a quarterly period	\$60
Telehealth Service (patient-end):		\$40
Telehealth Bulk Billing: paid each time a service is bulk billed		\$20

MBS Item Numbers

- 23 new item numbers are now available for online consultations, particularly in rural and remote areas, aged care and AMS's, across a **range of specialties**
- Rebated consults for General Practice are those between a patient and specialist, consultant physician or consultant psychiatrist where the patient is **accompanied** by a
 - Medical Practitioner
 - Practice nurse
 - Aboriginal health worker
 - Nurse practitioner

Area Eligibility

Geographic Information

Address: 80 Clarence St, Sydney NSW 2000
Longitude, Latitude: 151.205059, -33.867298
Urban Classification: Inner Metropolitan
Further Information: [More Doctors For Outer Metropolitan Areas](#)

Telehealth eligibility classification

Telehealth Classification: Not MBS Telehealth Eligible
Further Information: www.mbsonline.gov.au/telehealth

<http://www.doctorconnect.gov.au/internet/otd/Publishing.nsf/Content/locator#metro>

Medical Practitioner attendance at consulting rooms

For a patient participating in a video consultation with a specialist or consultant physician who is:

- a) located outside an inner metropolitan area, who is not an admitted patient;
- b) at an AMS

Item Number	Level	Rebate	Time*
2100	Level A	\$21.60	>5 mins
2126	Level B	\$47.10	< 20 mins
2143	Level C	\$91.35	> 20 mins
2195	Level D	\$134.40	> 40 mins

* whether or not continuous

Medical Practitioner attendance other than at a consulting room

For a patient participating in a video consultation with a specialist or consultant physician who is:

- a) located outside an inner metropolitan area, who is not an admitted patient;
- b) at an AMS

Item #	Level	Rebate	Time*
2122	Level A	Item 2100 (\$21.60) + \$24.50 / number of patients seen (up to 6). For ≥ 7 patients item 2100 + \$1.85 per patient	>5 mins
2137	Level B	Item 2126 (\$47.10) + \$24.50 / number of patients seen (up to 6). For ≥ 7 patients item 2100 + \$1.85 per patient	< 20 mins
2147	Level C	Item 2143 (\$91.35) + \$24.50 / number of patients seen (up to 6). For ≥ 7 patients item 2100 + \$1.85 per patient	> 20 mins
2199	Level D	Item 2195 (\$134.40) + \$24.50 / number of patients seen (up to 6). For ≥ 7 patients item 2100 + \$1.85 per patient	> 40 mins

* whether or not continuous

Medical Practitioner at a Residential Aged Care Facility

For a patient participating in a video consultation with a specialist or consultant physician and is:

- a) a care recipient receiving care in a RACF (not a self-contained unit)
- b) at consulting rooms in an RACF where the patient is a resident (excl. a self-contained unit)

Item #	Level	Rebate	Time*
2125	Level A	Item 2100 (\$21.60) + \$44.05 / number of patients seen (up to 6). For ≥ 7 patients item 2100 + \$3.15 per patient	>5 mins
2138	Level B	Item 2126 (\$47.10) + \$44.05 / number of patients seen (up to 6). For ≥ 7 patients item 2100 + \$3.15 per patient	< 20 mins
2179	Level C	Item 2143 (\$91.35) + \$44.05 / number of patients seen (up to 6). For ≥ 7 patients item 2100 + \$3.15 per patient	> 20 mins
2220	Level D	Item 2195 (\$134.40) + \$44.05 / number of patients seen (up to 6). For ≥ 7 patients item 2100 + \$3.15 per patient	> 40 mins

* whether or not continuous

Nurse /Aboriginal Health Worker at a Residential Aged Care Facility

For the purpose of these item a practice nurse means a registered or enrolled nurse who is employed by, or whose services are otherwise retained by a medical practitioner or their practice.

Item #	Rebate	Location
10983	\$31.20	Outside an inner metropolitan area or at an Aboriginal Medical Service
10984	\$31.20	At a residential aged care facility

Bulk Billing

- For the next 12 months, a Bulk bill incentive of \$20 per service will be applied to any Medical Practitioner telehealth item numbers
- For subsequent years the incentive decreases incrementally

Example

25 minute consult via videoconference by GP

2143 Level C Telehealth Consult	\$91.35
+ Telehealth Bulk Bill Incentive	\$20.00
+ Telehealth Service Incentive	\$40.00 (paid quarterly)
TOTAL	\$151.35

Finer Details

- Duration of attendance
- Restrictions
- Record Keeping
- Eligible Geographic Areas - determined by location of the patient service
- Billing a face-to-face consults on the same day a video consultation

RACGP

- RACGP implementation guidelines released
 - <http://www.racgp.org.au/telehealth>
- RACGP engaged by DoHA to develop standards for GP
 - “Standards for general practices offering video consultations”
 - Will be an addendum to the 4th edition standards
 - Covers safety and quality of VC, not technical
 - Due out in October 2011
- Watch the RACGP Friday Facts

RACGP Guidelines

- End to Quality Assurance
 - Training, checklists, monitoring, standards
- End-To-End Security and Privacy
 - Transmission, interface, physical location, directories
- Internet Connectivity
 - Appropriate speed and a suitable contention rate
- Pros and Cons of
 - Web based, computer based, tablets, desktop appliance, room appliance, purpose built rooms.

Staff of the RACGP e-health unit:

Judy Evans, Manager e-health

Camilla Preston, Senior project officer (on Telehealth Standards project team)

Internet Connection

- Aim for a minimum of 1 Mbps
- You may need a dedicated ADSL for video conferencing
- It is important to test
- ADSL2 connections are not created equal

```
Speed (kbps):  DS Channel1  DS Channel0  US Channel1  US Channel0
                0           6472         0           1040
```

It's the uplink speed that matters

Extract of ADSL status from a Cisco 877 router

Skype

- The big question on everyones lips
- Skype is not recommended by the RACGP
- Skype provides a way to test at minimal cost
- Skype could change greatly following it's acquisition by Microsoft

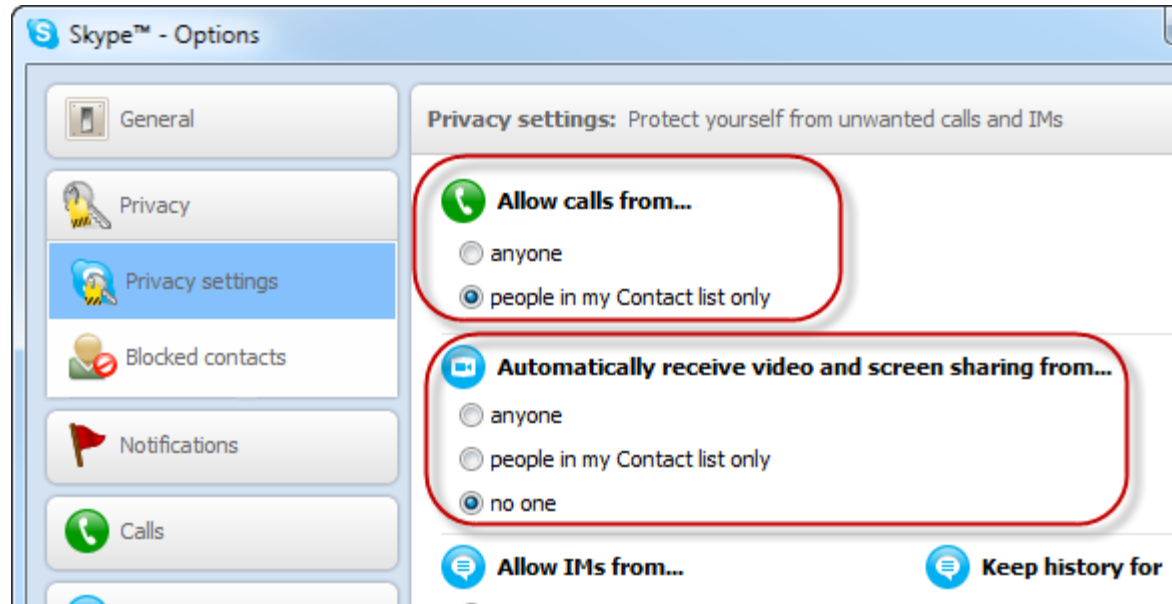

What's wrong with Skype and other free solutions?

- The session is encrypted, but data relating to the session is not encrypted (eg: address book and call history)
- Despite encryption, no ISP will guarantee it's clinical safety
- Traffic could be routed overseas
- Not interoperable with other services
- Potential for spam video calls
- No support
- Does not meet clinical standards

GPs may be asked to use Skype

- Make sure you set Skype up to protect yourself

Software Ideas

- Citrix GoToMeeting ~ \$65 per month
www.gotomeeting.com.au
- Cisco WebEx ~ \$65 per month
www.webex.com.au

Both WebEx and GotoMeeting allow to you connect to parties that don't have an account.

They are ideal back up solutions

- Polycom PVX (about \$250, one off)

Questions to ask

When considering a VC Vendor

In the Practice

- Who installs the gear and installation costs ?
- Does a VLAN need to be installed ?
- Is your current internet connection suitable ?

Equipment

- What platforms and technologies can you connect to ?
- Can the equipment be used with tele-monitoring ?
- Can the equipment be moved from room to room or set up in a patients home ?
- Is traffic routed overseas ?

Questions to ask

When considering a VC Vendor

The call

- Is the call and all data relating to the call encrypted ?
- Who can see the phone book ?
- Are entries in the phone book verified ?

Support

- What are the ongoing support/maintenance costs?
- What does support include?
- How is video internet traffic routed (does it go overseas) ?

Operations

- Scheduling calendars between participating practitioners?

Hardware Ideas

The following pages show examples of today's Video Conferencing Hardware.

- Practices should use their own due-diligence when selecting a product
- National / State bodies may also provide packages

Polycom HDX4500

Advantages

- All-In-One
- Suitable for a GP desktop

Price

- Price ~ \$8,399 (includes support)
- Annual support ~ \$1,499

Lifesize Passport

Advantages

- Can connect to Skype
- Suitable for a GP desktop

Price

- Price ~ \$4,000, plus monitor and trolley
- Annual support ~ \$500

Vidyo

Advantages

- The simplicity of Skype with enterprise capabilities
- Connects to iPads, tablets, Androids
- HD video
- Technology more durable to regional ADSL connections
- Able to connect to other devices, ie: Polycom (additional cost)

Price

- Price ~ \$18,000 - \$20,000
- Annual support ~ \$2 – 3,000

- Synchronising the appointment book between GPs and Specialists
- Uses a portal called “Manage My Health” (MMH) for patient scheduling
- VitelMed’s plan is for GP Divisions to maintain a directory of GPs and SBO’s and coordinate Specialists interested in Telemedicine
- VitelMed will use MMH to do appointment set-up and notification using a combination of Telephone calls, emails and SMS confirmations for a service fee
- Each party can use their existing PC’s with Desktop PMS.
- Manage My Health could be used by GP Divisions to run a virtual practice for Telemedicine using more comprehensive EHR

Opportunities for Divisions / Medicare Locals

- Hold information sessions for primary health
- Explore a “preferred option”
- Explore a backup option and make it clear why a backup solution is needed
 - Risk: your backup solution may be so popular it makes the primary solution a wasted resource
- Have a strategy for Skype
 - Be clear why Skype isn't a good idea for General Practice
