

Choosing a Purpose Built Vaccine Fridge

Introduction

This reference has been compiled to inform immunisation providers of the range of purpose built vaccine fridges available for private purchase. Information contained in this reference is directly from the manufacturer and is to be used as a guide only. It is recommended you contact the manufacturer for additional information to assist in determining which purpose built vaccine fridge is best suited to your needs.

It is important to be aware of the features on your purpose built vaccine fridge, as this could affect your temperature monitoring requirements.

For advice for storage and handling of vaccines please refer to the [National vaccine storage guidelines: Strive for 5](#) and/or contact your local Division of General Practice or Medicare Local.
